

Personalized AI Health Assessment

AI-assisted screening report for clinical review

Patient Data

Name: Ms Nitiksha Parvadia
Age: 23 | Gender: Female | BMI: 26.12 | Glucose: 139.0 mg/dL
Blood Pressure Status: Hypertension Stage 1
Generated: 23 Apr 2026, 03:20 PM

Clinical Insight (AI Generated)

Ms Nitiksha Parvadia's BMI is 26.12, with model risk estimates of stroke: 1%, hypertension: 25%, diabetes: 10%. No model crossed the high-risk threshold, but the results should still be reviewed with a clinician. Focus on the listed risk factors, maintain follow-up care, and avoid changing medication without medical advice.

Diagnostic Risk Scores

Stroke Risk: 1% (Low)

Justification: Your stroke risk is low. Your vitals are within a healthy range.
